The unit returned during the night on 29 September.  only small exercises were held in the vicinity of Koenigsbrueck between 25 and 29 September. Between 1 and 9 October, up to 5 T-34 tanks repeatedly left the installation for driving practice either in the Au or at the training grounds. 25X1

Beginning on 25 September, troops moved, mostly at night, from Neues Lager (1523) and the summer camps along the Koenigsbrueck-Schwepnitz road to assembly areas in the Lausnitz Heath where tanks and guns were dug in. No movements were observed on 29 September. Other exercises were reportedly held in the Kamenz area between 29 September and 6 October. Troops participating in these exercises advanced to Kamenz via Schwepnitz and Strassgraebchen. On 7 and 8 October, heavy noise of combat including reports of artillery pieces and infantry weapons was heard from north of Neues Lager at the Koenigsbrueck training grounds on 7 and 8 October. 25X1
3. On 25 and 26 September, approximately 10 troop trains, each carrying 25 to 30 tanks, were loaded at the Koenigsbrueck-Ost railroad station. The trains allegedly left toward the Lausnitz Heath. Between 27 September and 3 October, the following shipments left toward Dresden from Koenigsbrueck-Ost and Koenigsbrueck: 6 shipments with guns of 120 to 150 mm, prime movers and trucks; and 1 shipment with approximately 25 boxcars carrying personnel who wore red-bordered black epaulets. 25X1
4. Prior to 29 September, major exercises were held in the Riesa-Koenigsbrueck area. Between 1030 and 1400 on 29 September, large truck columns without weapons passed through Riesa and proceeded eastward. The trucks were occupied by soldiers wearing red-bordered black epaulets and carrying full field pack. At 0500 on 27 September, large-scale maneuvers started in the Koenigsbrueck-Jadeberg area. 25X1

25X1  
25X1  
25X1

About 22 to 27 September. Tank units crossed the Elbe River toward east in the Muehlberg section in the Zeithain area and were subsequently entrained for posts of the 11th Gds Tank Div at the Wuelknitz and Roederau railroad stations.

About 25 to 29 September. For information on movements in the Koenigsbrueck area, see paragraphs 1 and 2 [redacted] This may have been an exercise of elements of the 8th Gds Mech Div or an exercise in which the division participated. Compare with information on the departure toward the east of elements from Grimma on 23 September [redacted] The tank regiment of the 11th Gds Tank Div which, according to paragraph 1 of the present report, left the Nachrichten Schule on 26 September, may have also participated, possibly as enemy group.
